ENGLANDER WEEK

BEGINNING TO-MORROW

A week devoted to special demonstration of the ENGLANDER "Productions" for Sleep and Rest

ENGLANDER "Productions for Sleep and Rest," known throughout the world for their quality and utility, convenience and sanitation, will occupy the spotlight of the furniture stores throughout the town all next week—Englander Week.

Turn your first opportunity into a visit to your favorite store and ask to see an Englander Bed or Spring or Da-bed or Couch Bed. There are over 25 Englander "Productions for Sleep and Rest" from which there is sure to be one or more that you should now have in your own home.

Four of the many ENGLANDER "Productions for Sleep and Rest"

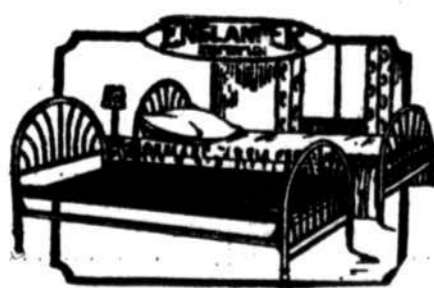

MADE by the largest manufacturers of their kind in the world, the Englander products are found in homes of those who are particular about quality, about absolute sanitary construction, beauty and economy. The utmost in comfort is a certainty.

Be certain of guaranteed value by being sure that the "Production for Sleep and Rest" you buy bears the ENGLANDER trade mark, just as you are sure to look for the Sterling mark when you buy silver.

Englander Wit-Edge Spring

The only bed spring with the famous turned-up sides which hold the mattress in place and keep it compact and comfortable all the time. The mattress will not lap over the edges nor slip and slide, becoming uneven and lumpy. You will not know what real convenience this is until you have tried one.

Englander Three-Piece Bed

The sturdy link fabric spring has the well-known Wit-edge Side Guards—a patented feature which makes this the most popular three-piece bed made. Very durable and sanitary and should last a life-time. Comes in Enamel and Wood finishes.

Englander Couch Bed

The luxury and convenience of this Englander Couch Bed can be imagined from the illustrations. A comfortable bed by night and WITH ONE MOTION quickly convertible into a luxurious couch for day use.

Englander Double Da-Bed

An attractive, comfortable Da-Bed of fine appearance and a restful, slumber inducing bed for sleep. Beautifully designed and absolutely sanitary. The ends are closely joined and fitted to insure rigid construction. Makes a full-sized bed when open.
